## EXPO - Study Abroad

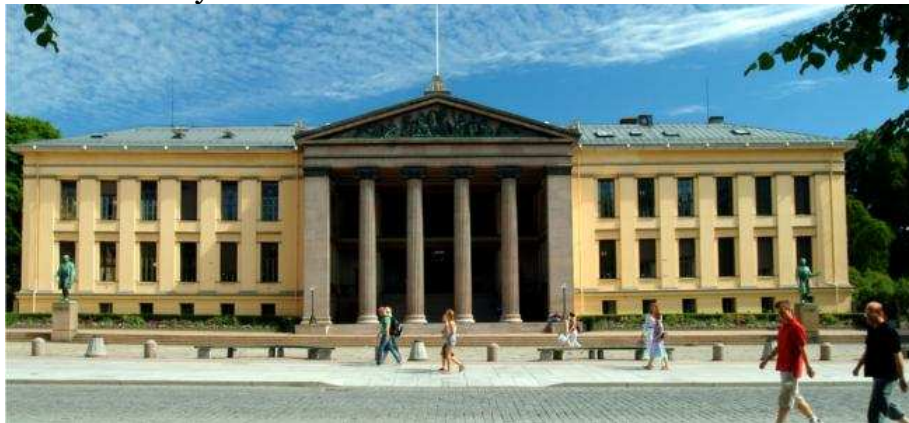

Photo: Nancy Bundt/Innovation Norway

Do you want to study abroad in Norway? Come and hear more about your opportunities to study abroad at the EXPO this Saturday, April 10th, from 2pm-6pm at Berkeley College in New York.

EXPO Study Abroad is a fair organized by FPP Edu-Media where you can learn more about different study abroad options, and have direct contact with admissions representatives from international educational institutions from across North and South America, Europe, Africa and Asia, as well as learn all about how to study in another country.

Each exhibitor has their own booth where you can have a seat and talk with them, get brochures, see photos of the schools and accommodation, check out former student testimonials and find out anything you want to know.

Inside the fair we'll have various types of schools and courses for you to choose from, such as language schools, boarding and high schools, undergraduate and graduate degrees, MBAs, internships and work abroad opportunities.

Entry is FREE.

### Address

Berkeley College  
3 East 43rd Street, Midtown Manhattan  
NY 10017  
New York
